Summary

Full Stack Developer with hands-on experience in building scalable web applications using the MERN stack. Proficient in writing clean, maintainable code and implementing responsive UIs with React and Tailwind CSS. Skilled in RESTful APIs, Firebase, version control (Git), and cloud deployment (Vercel, Render). Passionate about problem-solving and collaboration. Motivated to create seamless user experiences, optimize performance, and continually learn new technologies to stay ahead in web development.

Education

UEM University, Bachelor of Computer Applications   2024 - 2027

Experience

Intern, Kodu - Powered By Dhurina   Jan 2025 – Apr 2025

- Designed and developed responsive UI using HTML, CSS, and JavaScript
- Optimized website performance and ensured cross-browser compatibility
- Integrated APIs and dynamic content using React
- Used Git and deployed projects via Netlify and GitHub Pages

Projects

Image Search Application

- Developed using React and Unsplash API
- Implemented search, pagination, and responsive design

Recipe Application

- Built with React; search and filter recipes by ingredient/cuisine
- Integrated external recipe API with real-time data

Weather Application

- Used OpenWeather API to display real-time weather
- Built with React for dynamic updates

To-Do List Application

- Task manager with add/edit/delete functionality
- Persistent data using local storage; built with HTML, CSS, JS

Skills

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Firebase

Dev Tools: Git, GitHub, VS Code, Postman

Deployment: Vercel, Render, Netlify

Soft Skills: Problem Solving, Logical Thinking, Team Collaboration
